  Board of Secondary Education
  Year: 2018

SKILL HIGHLIGHTS

- Programming Languages: Python, HTML, CSS, JavaScript
- Web Frameworks: Django
- Frontend Technologies: Bootstrap, ReactJS
- Database Management: MYSQL, SQLite
- Version Control: Git
- Problem-Solving Skills
- Team Collaboration

CAREER HIGHLIGHTS

- Completed comprehensive training in full-stack development with a focus on Python programming language.
- Developed dynamic web applications using Flask and Django frameworks, showcasing proficiency in both front-end and back-end development.
- Utilized HTML, CSS, and JavaScript to create interactive user interfaces and enhance user experience.
- Implemented database management systems including SQLite and PostgreSQL to store and retrieve application.

CERTIFICATIONS

- Salesforce Developer Virtual Internship
- Besant Technologies Python Completed
- C.S.C Academy Long Term Internship

HOBBIES

- Learning
- Public relations
- Listening Music
- Travel
- Political Analysis
- Yoga
- Playing

WORK EXPERIENCE

Python Full Stack Developer Training
Besant Technologies
November 2023 to March 2024
Successfully completed Python Full Stack Development program at Besant Technologies, gaining proficiency in both front-end and back-end technologies.

INTERNSHIPS & TRAININGS

Short term internship on salesforce developer   Aug 2022 Oct 2022

- Immerse yourself in the dynamic world of Salesforce as a Developer intern.
- Collaborate closely with experienced developers within our team. - Undertake real
-world projects focused on designing, customizing, and optimizing Salesforce solutions.

Long term internship on Data analyst in CSC academy   April 2023 July 2023

- As a Data Analyst at CSC Academy, you'll have a pivotal role in extracting value from data to optimize educational
- Collaborate with educators, administrators, and technology experts to analyse complex datasets.
- Uncover patterns, anomalies, and correlations within the data to identify opportunities.
- Provide data-driven insights that directly influence and shape the academy's strategies.

PROJECT

 Ecommerce Business Application
Technologies Used:

Frontend: JavaScript, HTML, CSS, React JS
Backend: Python, Django
Database: MySQL

Description:
Developed a small-scale web-based ecommerce application aimed at replicating the real-time store experience online. The project involved integrating frontend and backend technologies to create a seamless user experience for customers.

Key Contributions:
• Implemented dynamic and responsive web pages using React JS, ensuring optimal user experience across devices through multi-level routing.
• Managed application state effectively using the Redux library, facilitating seamless data flow and enhancing performance
